

# Ben & Becca

Dear Birth Mom,

Thank you for taking the time to read our story. We hope that we can be a support to you during a time when you must be experiencing so many different feelings.

No matter who you end up choosing to be a part of your child's life, we know it is a decision that you are making with deep love and courage, and we have great respect and admiration for you. You have the opportunity to turn an individual or a couple into a family, and that is very special.

We have been together for five years and married for three years. We are so excited to become parents! We have talked about it and dreamed about it for a long time. Our family is so excited for us to adopt, and our parents can't wait to be grandparents. (We are both only children, so they have been waiting for a grandchild for a long time!)

We love to travel, and spend a lot of weekends at our family's house on the Cape in the summer and Southwest Florida in the winter. We host Thanksgiving for our families and "Friendsgiving" for our friends at our home every year!

We are close with our cousins and their families, and consider their children to be our nieces and nephews. We are proud to now have 2 nieces and 4 nephews. They would all love to welcome a new cousin!

## BECCA

I love reading, writing, travel, photography, hiking, and spending time with family and friends. I am the preschool director for a school district, and have been working in the field of early childhood and special education for 15 years. I have my masters degrees in speech-language pathology and educational leadership, and think it's so much fun and very rewarding to work with young children and their families. Some of my favorite memories are attending baseball games all over the country with my dad (and there is a rivalry, because I'm a Sox fan and my dad is a Yankees fan!) and officiating my best friend's wedding a few years ago.

I enjoy cooking, photography, reading & karate. I am a fourth-degree black belt as well as a business analyst for a food broker company. I am also on the town finance committee, which works to make budgetary decisions on behalf of the town, and recently completed my MBA. Which means I am super excited to help with math homework! Some of my favorite memories from growing up are camping trips and baseball games with my family.

**BEN**

We both love trying new things, learning new things, and having adventures together. We like to keep each other laughing and try to see the humor in all situations. We have a lot of enthusiasm and love for life, and we hope to pass that onto a child.

Two years ago we bought our home in a beautiful town in Massachusetts with a highly ranked school system. We have four bedrooms, which means plenty of space for a family, as well as a big yard, which is perfect for a swing set, bouncy house, or a dog--or all three!

We live about 45 minutes outside of Boston, and enjoy getting into the city for shows, games, museums, and restaurants.

We are very excited for this adventure. We have a lot of love to give and can't wait for the opportunity to become a family. Thank you for considering us!

With Love,  
Becca & Ben
