

Emilee & Mario

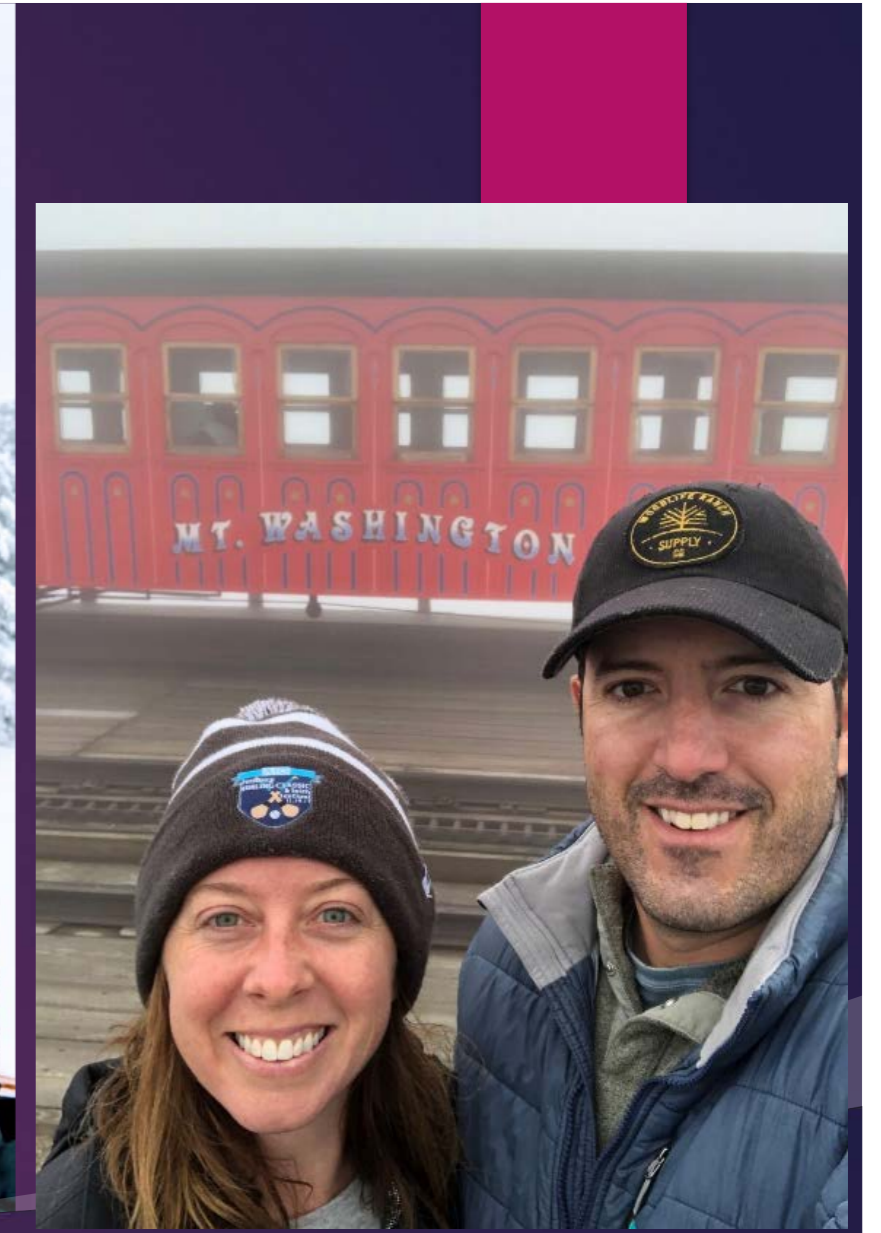

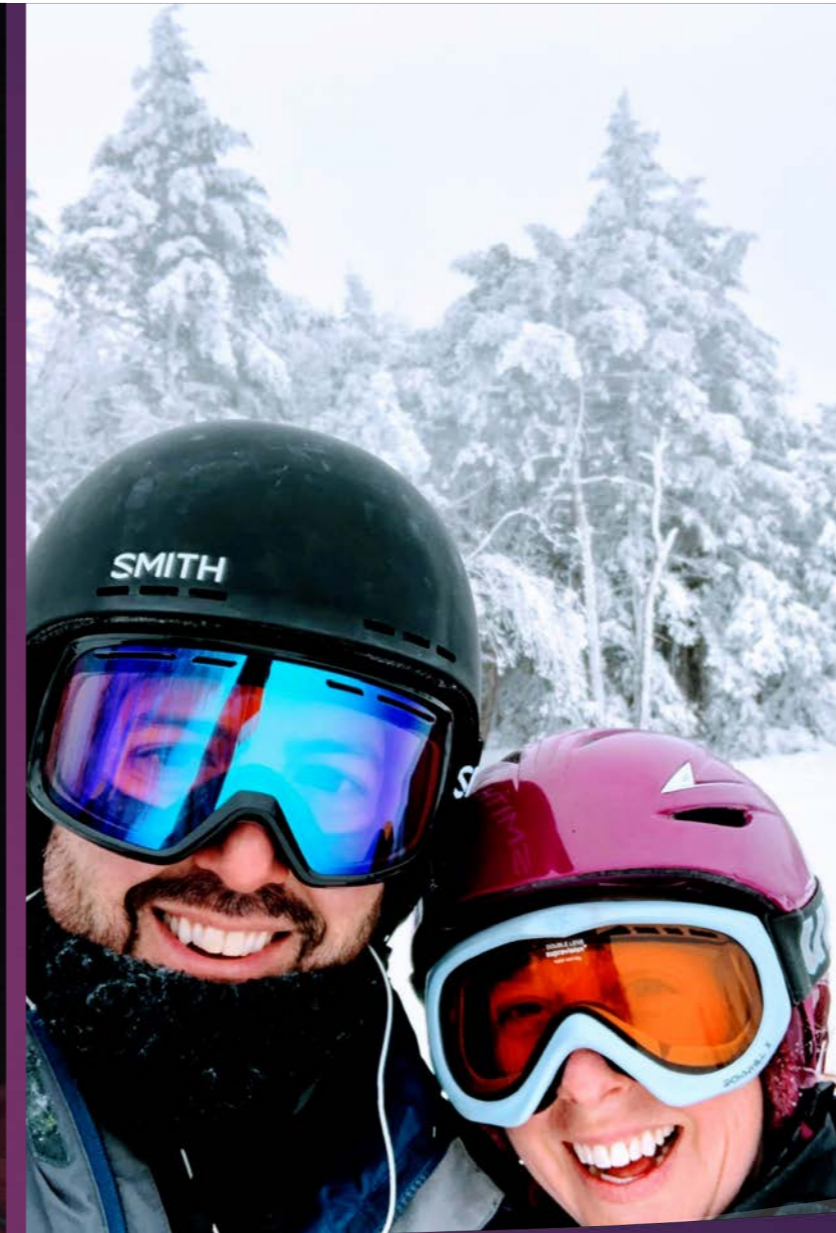

Dear Birth Mother,

We want to thank you for considering adoption for your child. We are looking forward to learning about you; your life now and your hopes for the future.

For us, adoption is the way we want to grow our family. Our desire to help a child and become parents is rooted in love. Through family and friends, we have both seen how adoption can be a positive experience. We hope that by getting to know us, you will be comforted that your child will grow up in a loving, caring atmosphere.

We met through mutual friends while on vacation in Florida, where we got to know each other during a deep sea fishing trip. After the trip, our relationship began and has grown stronger due to the good balance of our complimentary personalities. Emilee is outgoing and Mario is more introspective. Mario is a fantastic cook, while Emilee would rather do the dishes. We have both been able to introduce the other to new things and think that the values we bring to our relationship will be beneficial as we enter parenthood.

A note from Emilee- I grew up with two younger sisters in New Hampshire. I work as a scientist in cancer research—helping patients find the right medicine to fight their disease. I love sports, particularly baseball and football, and also enjoy being near water— either on a lake or near the ocean. I can't wait to share my interest in reading with a child. We enjoy traveling and would like to pass on a sense of wonder of the world through travel to our adopted child.

A note from Mario- I am the youngest of four children. I had a great childhood, growing up in the town just south of where we live now. I enjoy spending time outdoors in all the seasons; from fishing, golfing, and hiking to hunting and skiing. I am the estate manager at a farm that produces products like maple syrup, honey, and apple cider. We are very much looking forward to introducing a child to a lifestyle based on outdoor adventure and a love of nature.

Hunter and Colt are our two yellow labs. The dogs love to play fetch and roam around the woods that surround our house.

We plan on always having a dog in the family. We hope the dogs will continue to bring the family together, teach responsibility, and build a loving home.

There's no place like home

We are fortunate enough to be surrounded by loving family and friends. Our house is located in peaceful Berkshire County, Massachusetts. We live in a rural setting with lots of outdoor activities, and we are also close to cultural, artistic, and musical venues. We love hosting our families for holidays. Mario's big Italian family and Emilee's big Irish family meld well together at joint family functions. Emilee and Mario are proud to be aunt and uncle to our sibling's children and we cherish the time spent with them.

Antiquing

Our Hobbies

Camping

Concerts

Fishing

Having Fun!

We promise to do our best to raise your child to be the best version of themselves, contribute positively to the community, and live each day to the fullest. We know that the right child will come into our lives at the right time. Thank you for considering making the dream of creating our family come true.

Love,

Mario & Emilee (and Colt & Hunter)
