

# MARGARET & MEGHAN

Dear Birth Mother,

For the length of our 16-year relationship we have talked about having children. Finally after much soul-searching and life experience we have decided the time is right. We wanted to make sure that our home, our lives, and our hearts are 100% ready to welcome a new member into our family. And now that we're here, we're incredibly excited! We always knew, when the time came, that we would seek a child through adoption.

Meghan was adopted as an infant and knows what a blessing adoption can be for both the child and the parents. We promise you that we will love your child deeply and care for it wholly. Your child will be a gift to us, and they will know of your love, bravery, and generosity. We are deeply grateful to and have enormous respect for you.

We met in 2001 in the Atlanta area and moved to Boston in 2006 for Meghan's work. The things that brought us together then – music and church – are still very much part of our lives now.

## MARGARET

I also enjoy cooking, playing the piano, watching movies, and reading. I can't wait to teach our child to cook!

I am a professional singer in Boston (and sometimes other places like Florida, Colorado, Arizona, and even Europe). I am the director of development for a non-profit music organization. Part of what I love about my vocation is that I get to meet lots of interesting people and have many special and meaningful conversations.

## MEGHAN

I very much enjoy getting to know and working with students and parishioners in my job as a college professor and parish priest. I also enjoy going to the gym, reading, watching movies and tv, hearing Margaret sing, and eating whatever Margaret cooks!

When we're not working we like to go for walks, watch tv shows, talk, eat, vacation, cuddle, play with our silly cats, laugh, play games, have meals with friends, go for drives, go to church, and go to concerts and museums. Sometimes we will go and visit our parents in Connecticut & New York City.

We spent several days visiting Rocky Mountain National Park. Margaret has a dream of one day visiting ALL the national parks in the United States.

We live in a fun, funky neighborhood in Boston with access to so much -- we're a very short walk to the subway and all that urban living has to offer, and we're also a short walking distance to two large parks, one of which has a zoo!

We have two black & white tuxedo cats - George and Gertrude. They're siblings that were abandoned and we adopted them when they were kittens. Now they're 8 years old. They're silly, sweet, a little skittish, but always curious.
