

Israel & Nick

Dear birth mother,

Thank you for taking time to get to know us a little better. We are a young married couple and extremely eager to add a child to our family. We have a wonderful support system and an incredible amount of love to give to a new child.

I understand that this was a difficult decision to make, and this process is not going to be easy. But know that we will be as supporting and involved as much as you would like us to be. We will be here for you (if you want us) at each step of the way to support you.

We both moved to MA from NY in 2020 . One of the main reasons for that was to be closer to family. Nick's parents live about 20 minutes away from the house we now live in. We spend a lot of time at my parent's house hanging out, playing games, and making dinners. We also love to travel.

This year we have three trips planned to California, France, and Italy. We are taking my mom on her first trip to Italy, for her 60th birthday this year. We have also taken trips with close friends to California. Nick has also travelled extensively in Europe, taking road trips with his sister, and visiting several countries

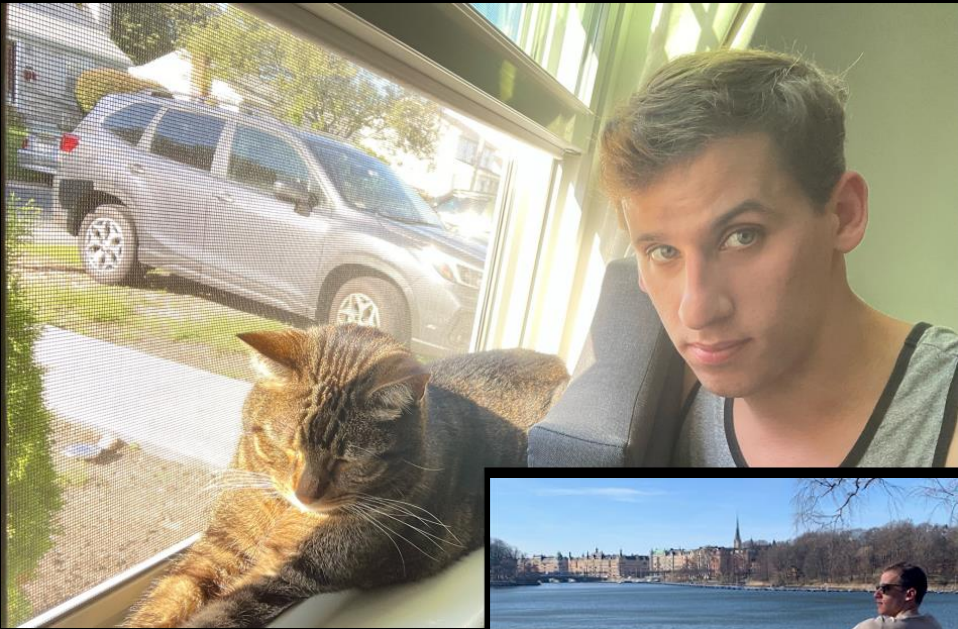

We do yoga together sometimes at the studio, and love to take long walks together around the town, along the beach, and near the lighthouse. We also love to play board games, and we frequently add our friends or my parents into a game. Now that we live in the suburbs, we also started stopping at estate and yard sales.

NICK

I am an avid reader and enjoy walking the beach, taking hikes, practicing yoga (a lot!), and meditating. I work in cancer research and am now employed by a company that works with various partners around the world to develop new cancer drugs and to get them into clinics.

ISRAEL

I work in finance. When I am not working, I like to read, practice yoga, workout, and brainstorm/build out business models for new ideas.

My ideal vacation is exploring new cities and cultures and trying new activities in each place. The best part of traveling is getting to visit with my nieces and nephews when I visit NY.

We just bought a house at the beginning of 2021 in a beautiful, quaint, beach town (with great schools!). We live on a side street and the neighborhood is a mixture of incoming younger families, and older families that have lived there for a long time. There are lots of kids around. Our house is very close to the beach (about 500ft down the street). Our home has three bedrooms and one bathroom with a very spacious family and dining great room. We also have a good-sized yard with plenty of space for toys and a swing set.

We also have three cats, Poe, Darwin, and Scout who we love dearly. They have been with us for about 10 years and they are gentle and great with other people and our friend's children and babies that they bring over.

They provide endless joy in the household, and we love having them around.

Thank you for taking the time to get
to know us,

With our deepest gratitude,
Israel & Nick
